SUMMARY

Computer Science undergraduate (B.Tech, 2027) with hands-on experience in data analytics across logistics and IT operations. Skilled in SQL, Python, Pandas, Excel, and Power BI for data cleaning, analysis, KPI reporting, and dashboard development. Processed and analyzed 10,000+ raw data records during a logistics internship and developed data-driven analytics projects. Seeking a Data Analyst or Business Intelligence role to apply analytical and problem-solving skills to business data.

EDUCATION

Guru Gobind Singh Indraprastha University

New Delhi, India

B.Tech, Computer Science and Engineering | CGPA: 7.29/10

St. Joseph's School, NTPC Kahalgaon

Bihar, India

Senior Secondary (CBSE) — 67.2%

SKILLS

- **Languages & Databases:** SQL (PostgreSQL — joins, subqueries, CTEs, window functions, aggregations, CASE WHEN), Python
- **Python for Analytics:** Pandas, NumPy, Scikit-learn, Matplotlib, Data Cleaning, ETL & Data Transformation, EDA
- **BI & Reporting:** Power BI (DAX, Power Query, data modeling, drill-through), Advanced Excel (Pivot Tables, Power Query, XLOOKUP, INDEX-MATCH)
- **Analytics & Tools:** KPI Design, Statistical Analysis, Trend & Cohort Analysis, Dashboarding, Data Visualization, Data Validation, Git, GitHub, VS Code

EXPERIENCE

NTPC Limited

Jul 2026 – Aug 2026

IT Intern

Kahalgaon, Bihar

- Completed a 1-month **IT internship at NTPC Kahalgaon**, gaining practical exposure to **IT operations**.
- Developed an **IT Asset Management System** using **Python, Tkinter, and SQL** to manage **10,000+ synthetic assets**, helping streamline asset assignment, status tracking, record management, and administrative access while improving organization and operational efficiency.

A&D Global Freight Pvt. Ltd.

Jun 2025 – Jul 2025

Data Analyst Intern

Delhi, India

- Completed a 1-month **Data Analyst internship at A&D Global Freight Pvt. Ltd.**, gaining hands-on experience in logistics analytics.
- Analyzed **12,000 logistics and shipment records** using **Python, SQL, and Excel**, and created **dashboard-ready reports** that helped identify the **main causes of delivery delays** and support efforts to **reduce delays and improve shipment performance**.

PROJECTS

Netflix Data Analytics

Python, Pandas, PostgreSQL, SQL, Matplotlib, Power BI

- Addressed repetitive manual data-preparation and inconsistent catalog-formatting challenges by processing **8,807 Netflix titles (6,131 Movies, 2,676 TV Shows)**, transforming the original **12-field dataset into 18 analytical fields**, and performing Python-based inspection, cleaning, validation, and feature engineering including date and duration analysis.
- Built a **semi-automated analytics workflow** using Python, PostgreSQL, and SQL, generating **12 Matplotlib visualizations (6 basic + 6 advanced)** to analyze content trends, ratings, genres, countries, and duration patterns for repeatable, data-driven analysis and reporting.
- Created an interactive **Power BI dashboard** with **3 KPIs, 3 slicers, and 4 visualizations**, helping users quickly understand **content distribution, ratings, genres, and content-addition trends** for faster and more effective data-driven decision-making.

E-Commerce Sales Analysis Dashboard

Python, Pandas, SQL, Power BI

- Analyzed **9,994** retail transactions, **5,009** orders, and **793** customers, covering **INR 2.30M** total sales and **INR 286K** total profit to identify and evaluate product and regional performance, understand customer purchasing patterns, and support data-driven business insights.
- Designed a **4-page KPI dashboard** covering revenue, profit, regional performance, product mix, customer metrics, and sales trends.
- Cleaned and transformed raw sales data in **Pandas**, standardized dates, and engineered profit-margin and order-frequency fields.

NTPC IT Asset Management System

Python, Tkinter, SQL

- Developed a desktop **IT asset management system** for **10,000+** synthetic assets with SQL-backed records and administrative authentication, **enabling asset assignment, status tracking, secure administrative access, and structured record management**.
- Implemented **Add, Search, Update, Assign, and Delete** operations with real-time asset counts and password-protected admin actions.
- Designed a 4-table relational database covering assets, employees, users, and asset assignments for structured asset lifecycle tracking.

POSITION OF RESPONSIBILITY

Execution Head · ShutterFly (Official Media Society of GTB4CEC)

2025 – 2026

- Led media planning and execution for a **500+ student Freshers' Event**, coordinating logistics, volunteers, and venue operations.

CERTIFICATIONS

- **Samsung Innovation Campus** — Artificial Intelligence (Samsung) — Dec 2025 – Mar 2026
- **Data Visualization: Empowering Business with Effective Insights** (Tata Forage) — Mar 2026
- **Quantitative Research Job Simulation** (J.P. Morgan Forage) — Feb 2026
- **Data Analytics Job Simulation** (Deloitte Forage) — Feb 2026
- **Complete SQL: Beginner to Advanced SQL Tutorial** (Udemy) — Start-Tech Academy — Jul 2025

EXTRA-CURRICULAR

- **Gold Medalist** — Intra-College Men's Football Tournament 2025, GTB4CEC College
- **Bronze Medalist** — Inter-College Men's Kho-Kho Tournament 2024 (GGSIPU)
